

Dinosaurs & Dragons

Dinosaurs, great and small, fascinate people of all ages. The word "dinosaur" wasn't invented until 1841. Before then, people called the great reptiles they saw "dragons." Here are some basic dinosaur facts.

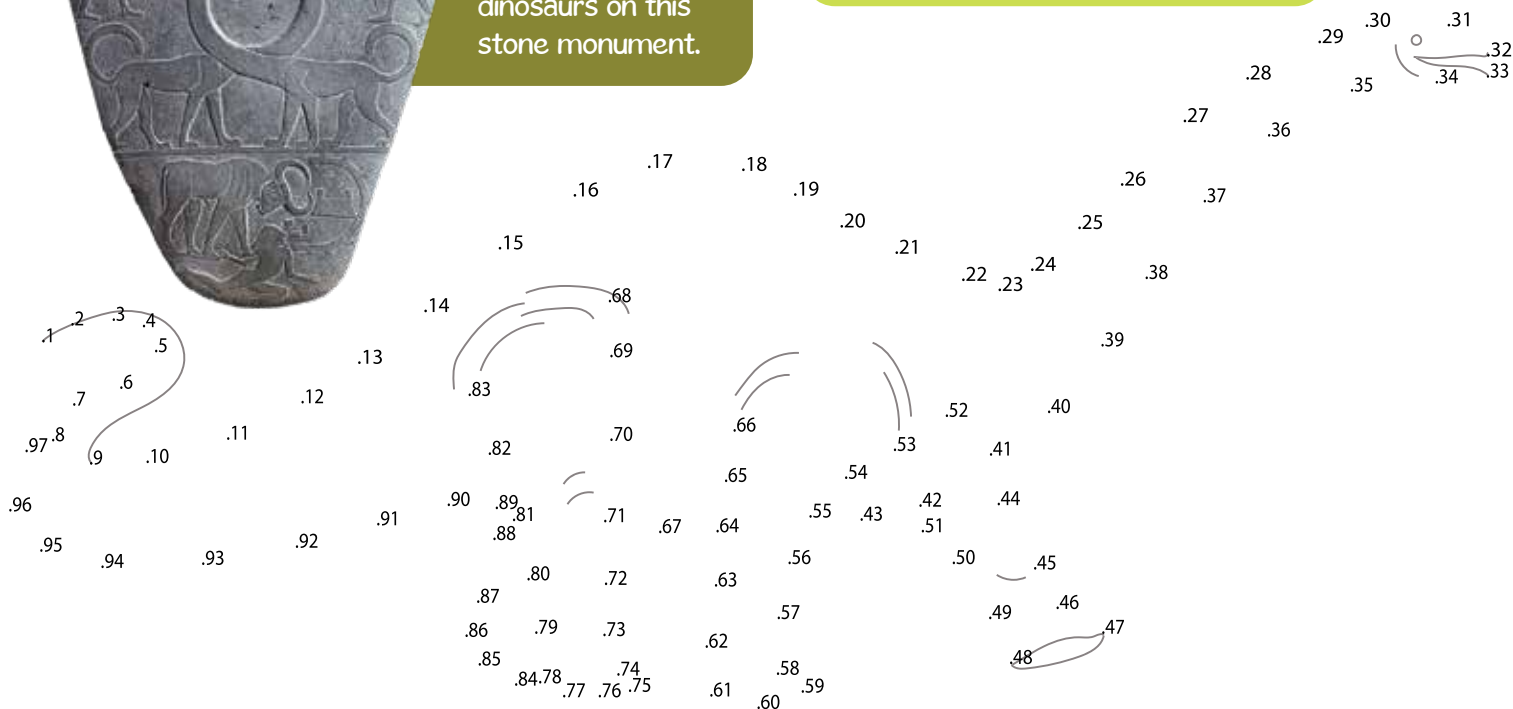

- ✓ Dinosaurs were created on Day 6 of the creation week.
- ✓ The Flood killed most dinosaurs, and many became fossils.
- ✓ Dinosaurs were on the Ark, and their descendants roamed the earth for many years after the Flood.
- ✓ For centuries, people all over the world reported seeing dragons. They even made dragon carvings and paintings.

About 4,000 years ago, Egyptians carved a pair of what look like long-necked sauropod dinosaurs on this stone monument.

Dragons in the Bible

The word "dragon" is used 22 times in the Old Testament. The book of Job says that a dragon called behemoth "moves his tail like a cedar" (Job 40:17). What do you suppose this creature was? Connect the dots to reveal what behemoth might have looked like.

Which one is not a dinosaur?

1.

2.

3.

4.

Answer: 3. The pterodactyl was a flying reptile. Dinosaurs were land reptiles.

This is the head of a dinosaur named *Dracorex hogwartsia*. Doesn't it look like a dragon?

Time to Draw! Draw a picture of what you think *Dracorex hogwartsia* looked like with skin and eyes.

Enter your drawing for a chance to win a copy of *God Created T. rex!* Just post your photo on Facebook or Instagram, tag @ICRscience, and use the hashtag #ICRcreationkids. Contest ends December 31, 2022.
